DEFECTS IN POSTAL LAWS

AUDITOR CASTLE SAYS THEY MAKE FRAUDS POSSIBLE AND SAFE.

Difference Between Theory and Practice in the Matter of Auditing-Some Amendments Suggested.

WASHINGTON, Oct. 21.-Various recommendations to cure defects in accounting methods under which abuses in the postal service have occurred, are made by Henry A. Castle, auditor for the Postoffice Department, in his annual report to the secretary of the treasury and the postmaster general. He says the defects pointed out make infinitely greater postal abuses than those already disclosed, not only possible, but safe. The report says the aggregate transactions of the postal service during the fiscal year were \$1,026,731,408, as follows: Revenues, \$134,274,443; expenditures, \$138,784,458; total amount of money orders issued, \$388,865,584; money orders paid,

\$364,856,893. Mr. Castle says: "Presumptively there is a 'double audit' of all government receipts and disbursements, but, literally, under existing laws and conditions, 90 per cent. of the postal transactions can have no examination whatever in the Postoffice Department. Less than \$150,000,000 of the

\$1,000,000,000 annual transactions can have the shadow of a 'double audit.' " As to claims for railway mail transportation, aggregating about \$40,000,000 a year, the report says the auditor must rely wholly on the bank statement of the de-

partmental authorities that the amounts certified are due and payable. The report recommends an amendment to the law prohibiting the payment of any salaries or expenditures pertaining to the business of the postoffice, by order of a postmaster. It also recommends other safeuarding amendments, together with an increase of 190 clerks to handle current business and vitally important work necssary to the safe audit of one thousand nillion dollars a year. The auditor summarizes the recent investigation of the methods of his office and deprecates the fact that the auditor keeps no accounts Department from the manufacturers or

contractors, and urges a law to remedy this defect. tor recommends that Congress amend the laws so as to provide, when "any branch of the government desires to use a patented article in the public service, some just method of deciding the value of that article, based on cost of manufacture, reasonable profit and fair royalty, and that the same be fixed as the price to be paid therefor. The manufacturer would doubtless, in all cases, be willing to accept the price thus established. He would have no motive for offering bribes to any official for approving the sale and the government would secure the desired improvement at a minimum cost. If the manufac-turer should refuse the price thus established, provision might be made for invalidating the patent as to articles re-

SECURED A LAKE.

Success of W. K. Vandervilt's Continued Effort at Lake Success.

NEW YORK, Oct. 31 .- After a struggle lasting eighteen months, Wm. K. Vanderbilt, jr., has succeeded in gaining permission to close the public highway leading to Lake out. Success on his beautiful Long island es-

tate, near Hempstead. Failing to purchase the lake after acquiring his estate in and around that body of water, Mr. Vanderbilt asked for the lease of a strip of ground that forms the connecting link between an old road and the waters of the lake. There was nothing Wednesday. Luncheon will be served at of record to show that the board of trustees of North Hempstead ever acquired The woman's auxiliary of the Railway Destal Clerks will meet to-morrow at 2 p. the lake save by prescription and use. The

stream with fish and hold it as a private preserve aroused much opposition. Previous to the election a year ago, he made an offer of \$50,000 to the town for the lake. It was determined to settle the question by the ballot. So intense was the feeling that the vote polled was more than that at the presidential election and the offer was rejected. Finally Mr. Vanderbilt appeared before the trustees and applied for a lease running ninety-nine years, in return for which concession he proposed opening a road to the lake by another noon and evening, serving dinner and supports. His opponents still refused to per. capitulate, but the matter was put to a

vote of the board and he won.

CASE OF LOUIS LEVIN.

Trustee Pratt Files an Amended Complaint in Federal Court. Addison S. Pratt, trustee in bankruptcy of the estate of Louis Levin, yesterday filed an americal complaint in the Federal brief sermon. Court against Emil Mantel, Charles Medias, Harry Wallace and the Western Undergarment Company to recover goods which evening, Nov. 13, in the Maennorchor Hall it is alleged Levin obtained from New who will take part in the concert are Miss York houses on credit and fraudulently shipped to the defendants in this city, who made them into undergarments. The plaintiff states in his amended bill that the lefendants, Medias and Mantel, are holding \$4,000 worth of diamonds and about forty-five cases of goods, which they claim are held as a pledge for money which they loaned to Levin.

AN AMERICAN'S EXPERIENCE ON

H. S. Pritchett, of Massachusetts, the First Foreigner to Ride on the Marienfelde-Zossen Line.

BERLIN, Oct. 31.-President H. S. Pritchett, of the Massachusetts Institute of Technology, has the distinction of being the first foreigner to ride on the motor cars used in the high speed electrical experiments on the Marienfelde-Zossen military railroad. After riding in both the Siemens and the Allgemeine cars to-day Mr. Pritchett described his experiences and observations to the Associated Press. Both cars reached a speed of a hundred miles an hour. Mr. Pritchett was surprised at the steadiness of the cars, which did not create, so far as unevenness of movement was concerned, the impression of so great a speed as American trains running at sixty miles

ing at the rate of 130 miles. character will certainly follow. The engineers expressed the hope that American capitalists would take the mat-

Eastern States offer exceptional prospects for building the first successful high speeding roads. Germany is too poor and too little developed to take up the matter at One of Emperor William's ideas is an

ter up and put it to practical use. They
